

## Worksheet W1 – See the World, Understand Industry, Shape Yourself

Group# TBD Student ID# \_\_\_\_\_ Department \_\_\_\_\_ Name \_\_\_\_\_

### Part A: Problem-Based Questions (before W1 class)

Study the assigned material **individually**. Write your answers **by hand** (on iPad or paper).

**Do not use AI.** Take a clear photo of your work and upload it to Moodle.

(required)

(reference)

#### 1. See the World

How do global events (like COVID, Super-Aged society or AI trends) affect a student's choices in study and career?

#### 2. Understand Industry

Think of one industry (e.g., food, technology, fashion). What kinds of jobs exist inside it, to your own knowledge?

#### 3. Shape Yourself

Which activity in university do you think is most helpful for your future, at this moment? Why?

### Part B: AI-Assisted Practice for Oral Presentation (during W2 class)

Work in your **group**. Use AI to create a full conversation (prompts + answers). **Share** the conversation link on Moodle, then use it to prepare your in-class **oral presentation** and Q&A.

#### 1. [G1 & G2] World Trends

Ask AI: How might global trends like climate change or digital technology create new career opportunities for students in Taiwan?

#### 2. [G3 & G4] Industry Mapping

Use AI to help create a simple chart: Industry → Company → Job. Fill in at least one example (e.g., Food → Uni-President → Marketing Intern).

#### 3. [G5 & G6] Career Path Design

Ask AI to suggest a simple 3-step career roadmap for you (e.g., take certain courses, join one competition, find one internship). Compare with your own plan.
